

VOLVO BLUE SERVICE CONTRACT

Scheduled maintenance and service plan

With scheduled maintenance based on a tailored service plan and remote workshop connection, you can enjoy greater truck uptime and efficiency. This will drive a more profitable business in the long run.

It's great for your truck - and your business

All maintenance is done when it suits you and follows a predetermined schedule to minimise disruptions to your operations.

All our technicians are certified, use Genuine Volvo Parts and have access to all specialised equipment, diagnostic tools and the database systems needed. They perform the Volvo Genuine Service operations needed to ensure uptime and functionality and this guarantees that your truck is in great shape when it leaves us.

For you, this saves time and effort. You also get better cost control – and a lower total cost of ownership, thanks to your truck running more smoothly and with fewer standstills.
